Trustees to Meet October 27

The open stated meeting of the University trustees has been scheduled for Friday, October 27 at 2 p.m. in the Council Room of the Furness Building. The preliminary agenda calls for reports from various trustee committees and resolutions on the election of new life and term trustees. The trustees will meet in closed session on Thursday, October 26 and Friday prior to the stated meeting. N. C. Wyeth’s An Apotheosis of Benjamin Franklin will be formally presented to the University at a luncheon Thursday. The 30-foot painting, on permanent loan from the Independence Hall Association, hangs on the Hill House courtyard wall. The newly renovated Ware College House will be dedicated at a luncheon on Friday.

Council Agenda Set for October 25

The University Council will meet Wednesday, October 25, from 4 to 6 p.m., in the Council Room of the Furness Building. Reports from the president, the provost and the chairman of the steering committee will be followed by the selection of a new moderator. Lee Stetson, director of admissions, will report on the freshman class and transfers, and Donald Langenberg, vice-provost for graduate studies and research, will present a progress report on the ad hoc Committee on University Relations with Intelligence Agencies (CURIA). Peter Conn (English) will give a progress report on the Council Review Committee, of which he is chairman.

Gerontological Nursing Program Established

The School of Nursing will establish a graduate program for training gerontological nurse clinicians. Funds in the amount of $75,753 were awarded the school by the Department of Health, Education and Welfare, Dean Claire M. Fagin announced. The program, which will be directed by Daniel J. O’Neal, III, M.S.N., will focus on the phenomenon of aging. The funds awarded are retroactive to July 1, 1978 and will cover the first year of a proposed three-year plan. The first year will be devoted to designing the curriculum for the master’s degree program in gerontological nursing, and students will be admitted during the second and third years. Program trainees will be registered nurses who hold a baccalaureate degree in nursing from an accredited school of nursing, and who have had at least one year of professional nursing experience.

United Way Campaign Gets Under Way

Dear Colleagues:

As it has been each fall for many years, this year’s United Way campaign is under way throughout our region. During the weeks in which thousands of volunteers canvas in support of United Way agencies and services, each of us is asked to make a commitment to the greater well being of the entire community.

The role United Way agencies play in lessening the tragic effects of economic and social deprivation is more important than ever before. Inevitably, the cost of these services is rising, and this makes individual support increasingly necessary to the agencies’ success.

For these reasons, I commend the 1978 United Way campaign and urge you to support its goals and purposes. Your support will be a contribution to the well being of this community in the year ahead.

Sincerely,
Martin Meyerson, President

WXPN to Lose License

The Federal Communications Commission (FCC) has issued a statement indicating that WXPN-FM, the University’s student-run radio station, has been denied renewal of its broadcast license. As Almanac goes to press, the 45-page decision has not been officially released to the University, according to Stephen B. Burbank, general counsel.

“There is normally a one-year ban on reapplying for a license,” Burbank said, but the University could request a waiver of the FCC rule to apply sooner. Another possibility is to appeal the decision to United States Court of Appeals for the District of Columbia.

Station supervision was the issue before the commission. The FCC investigative agency had recommended that the license not be renewed because of an “abdication of control over a period of years” that culminated in the broadcasting of obscene language on several occasions in January, 1975. The University paid $2,000 in fines in 1976 as a result of those broadcasts.

The trustees’ Electronics Communications Subcommittee will meet Thursday—the meeting was scheduled before the FCC statement was released—and may have recommendations for the full board of trustees, Burbank said.

Meeting on United Nations University Scheduled

Members of the University community are invited to attend a briefing on the work of the United Nations University, November 1, 4 p.m., in the Club Room of the Faculty Club. Dr. James Hester, rector of the United Nations University, and members of his staff will be there. The United Nations University, based in Tokyo, is an international network of universities and research institutions. It applies research to major global problems and offers advanced training to specialists in these areas. Established by the United Nations General Assembly four years ago, the university has three program areas: world hunger, use and management of natural resources, and human and social development.
Deadlines Ahead for Scholarships

It is not too late for students to apply for the following awards for graduate study abroad:

American-Scandinavian Foundation Fellowships. Application deadline is December 1 for 20 to 25 awards for study in Scandinavian countries.

Churchill Fellowships. These scholarships are for one-year's study of engineering, mathematics or science at Churchill College, Cambridge University, England. Stipends of $3,500 per year, travel expenses and allowances for dependents are provided. Requirements are: U.S. citizenship, 19-26 years old, Graduate Record Examination. Candidates must be nominated by the University. Call James Yarnall before November 10.

Luce Scholarships. Sponsored by the Luce Scholars Program of the Henry Luce Foundation, internships in East Asia are available for graduates in any field who are 29 or younger and who in the course of their careers would not otherwise expect to travel in Asia. The University may nominate three candidates. Call James Yarnall before November 10.

Rome Prize Fellowships of the American Academy in Rome. Stipends of $4,500 with an additional $1,200 for recipients with children are provided. Knowledge of Italian is required, and preference is given to candidates studying subjects connected with Rome in the post-classical period, fine arts or classical studies. Application deadline is December 31.

Thurston British-American Exchange Award. The program is restricted to unmarried male or female seniors or full-time students in the graduate/professional schools of the University. Students can study at any British university. Renewable stipends of $450-475 per month for 12 months, plus fees, are given. Application deadline is November 17. Applicants may apply concurrently for admission to British universities.

For information and application forms for the exchange programs call James Yarnall at the International Programs Office, 133 Bennett Hall, Ext. 4661.

For Your Reading Pleasure

Almanac welcomes notices of recently published books by members of the University community for a regular Almanac column. Penn Authors, starting next week. Books will be briefly noted, not reviewed, with reference to publisher, price, and subject matter. The column will list books only—no papers, lectures, pamphlets, monographs, articles, etc.—please. Address all book announcements to Almanac, 513 Franklin Building/16.

Top 100 Educators

Three University educators were named in a national poll of the 100 "most respected emerging leaders in higher education." The results of the poll, conducted by the American Council on Education, were included in "Academic Leadership: A New Generation Takes Over," in the October, 1978 issue of Change, a magazine published by the non-profit Council on Learning.

The Penn educators named are:

Dr. Vartan Gregorian, provost-elect, dean of the Faculty of Arts and Sciences and Tarzian Professor of Armenian and Caucasian History.

Dr. D. Bruce Johnstone, vice-president for administration and associate professor in the Graduate School of Education.

Dr. Patricia Ann McFate, deputy chairman of the National Endowment for the Humanities, currently on leave from the University, where she holds appointments in English, folklore, engineering and psychiatry. She was vice-provost for undergraduate studies and University life from 1975 until last summer.

Best Health Care

Harper's Bazaar asked medical experts to name the best medical specialists and centers in the United States. The results, published in the September, 1978 issue, listed two Pennsylvania faculty members among the best medical specialists: for depression, Dr. Aaron T. Beck, professor of psychiatry; and for gynecological cancer, Dr. John J. Mikuta, director of the Gynecologic Oncology Division of the Department of Obstetrics and Gynecology.

Dr. Robert Davies, Benjamin Franklin and University Professor of Molecular Biology in Animal Biology, in recognition of their services to the cause of women. The Helen and Robert Davies Award was one of this year's AWIS educational foundation awards.

Dr. Donald N. Langenberg, vice-provost for graduate studies and research, and trustees Carl Kaysen, vice-chairman and director of the Sloan Commission of Government and Higher Education, and Ralph Landau, chairman of the board of Halcon International, have been appointed to an 11-member National Commission on Research, recently established to propose changes in how the federal government supports academic research.

Dr. Albert Lloyd, professor and chairman of the German department, and Dr. Otto Springer, University Professor of German, have received a three-year research grant from the National Endowment for the Humanities to prepare the first etymological dictionary of Old High German.

Honors in Brief

Dr. Fay Ajzenberg-Selove, professor of physics, has been named chairman of the Commission on Nuclear Physics of the International Union of Pure and Applied Physics for a three-year period.

Dr. Herman Beerman, professor emeritus of dermatology, has been named honorary librarian of the College of Physicians of Philadelphia and elected an honorary member of the American Academy of Veterinary Dermatology.

Dr. Jeffrey M. Cohen, associate professor of physics, was awarded an Air Force Office of Scientific Research grant for "Inverse Scattering: Ionospheric Structure Determination."

Dr. Helen Davies, associate professor of microbiology, and Dr. Robert Davies, Benjamin Franklin and University Professor of Molecular Biology in Animal Biology, in recognition of their services to the cause of women. The Helen and Robert Davies Award was one of this year's AWIS educational foundation awards.

Dr. Donald N. Langenberg, vice-provost for graduate studies and research, and trustees Carl Kaysen, vice-chairman and director of the Sloan Commission of Government and Higher Education, and Ralph Landau, chairman of the board of Halcon International, have been appointed to an 11-member National Commission on Research, recently established to propose changes in how the federal government supports academic research.

Dr. Albert Lloyd, professor and chairman of the German department, and Dr. Otto Springer, University Professor of German, have received a three-year research grant from the National Endowment for the Humanities to prepare the first etymological dictionary of Old High German.

Dr. Abraham Noordergraaf, professor of bioengineering, was elected a fellow of the Explorers Club.

On its 165th Anniversary, the Philomathean Society, the oldest continuous collegiate literary society in the United States, was paid tribute by Congressman Michael O. Myers (Pa.). His remarks were recorded in the Congressional Record of October 2, 1978.

Dr. George Rochberg, professor of music and recently designated Annenberg Professor for the Humanities, and Richard Wernick, professor of music and director of the Penn Contemporary Players, received 1978-79 American Society of Composers, Authors and Publishers awards.

Dr. Joseph Sanger, associate professor of anatomy, was elected to a three-year term as trustee of the Bermuda Biological Station for Research.

Dr. Benjamin S. P. Shen, chairman and Reese Flower Professor of Astronomy, was recently awarded a medal of honor for science from the Societe d'Encouragement du Progres of the French Republic.
Speaking Out

SAM P

To the Editor:

We would like to comment on Mr. Meyerson’s remarks to the Commonwealth requesting increased appropriations for the University. (See Almanac, October 10, 1978.) Mr. Meyerson states, “The relentless pressure of inflation has forced us to prune programs and people—even entire schools—from the University...” As faculty members in a “pruned” school we find these remarks somewhat misleading.

The School of Allied Medical Professions (SAMP) consistently presented a balanced budget and it was acknowledged early in the deliberations over the school’s existence that fiscal integrity was not a real issue in those deliberations. Furthermore, examination of the documents accumulated during deliberation shows that SAMP had a high level of support from the Commonwealth. The health practitioners who received their education at SAMP were considered essential to the health and well being of the Commonwealth.

We find it particularly ironic, then, that Mr. Meyerson asks the legislators for more money, based on the closure of a fiscally sound school whose presence in the University the legislators specifically supported.

We recognize the need for the University to receive Commonwealth appropriations and do not wish to jeopardize those negotiations. We do want our academic colleagues to be aware of the truth, in contrast to the needs of political rhetoric.
