Wurster Professor at Wharton: Dr. Stephen Kobrin

Dr. Stephen J. Kobrin, an expert on international management at Wharton, has been named the William H. Wurster Professor of Multinational Management.

The Professorship was established in 1985 by William H. Wurster, chairman of Glendon Development, Inc., and managing partner of Cleaver Associates, to develop a coordinated program of teaching and research relating directly to international business and multinational management, with a view toward private international enterprise.

The coordinated program of teaching and research relating directly to international business and multinational management, with a view toward private international enterprise.

Dr. Stephen J. Kobrin, an expert on international management at Wharton, has been named the William H. Wurster Professor of Multinational Management. The Professorship was established in 1985 by William H. Wurster, chairman of Glendon Development, Inc., and managing partner of Cleaver Associates, to develop a coordinated program of teaching and research relating directly to international business and multinational management, with a view toward private international enterprise.

Dr. Kobrin has been active as a scholar, teacher and consultant in addition to a three-year tenure as director of the Management Development Department. He is currently on the editorial boards of the Journal of International Business Studies; International Organization; Academy of Management Journal; and International Political Economy Yearbook.

GSE Teaching Award: Dr. James Larkin

Dr. James Larkin, adjunct professor of education, is the recipient of the 1992 Excellence in Instruction Award at the Graduate School of Education. The award was presented to him at the School's Commencement last week.

Dr. Larkin, a graduate of Edinboro State College and the University of Maryland, joined the University in 1971. In addition to his teaching duties as a member of the school's associated faculty, he serves as the Director of the Teacher Education Program at GSE.

Acting Dean of GSE: Dr. Michael Tierney

Dr. Michael Tierney, associate dean of the Graduate School of Education, will temporarily serve as Acting Dean of the School while Dean Marvin Lazerson takes a two-month leave in September for research and writing.

Dr. Tierney is an associate professor at the School and the former associate director of the Institute for Research on Higher Education, 1980-89. He has held two chairs at GSE in the Education Division and in the Education, Culture, and Society Division. He has published extensively on issues concerning higher education. He received his Bachelor's and Master's degrees from the University of California at Santa Barbara.

Assistant VP/HR: Adrienne Riley

The promotion of Total Compensation Director Adrienne Riley to Assistant Vice President, Human Resources, was announced last week by Vice President William Holland. Ms. Riley retains her role as leader of the University's compensation and benefits programs for all faculty and staff, but in addition she will be responsible for developing Penn's agenda on quality of worklife.

Ms. Riley took her B.A. and two M.A.s from SUNY Binghamton, all in Romance languages, and holds the designation of CCP (Certified Compensation Professional) and CEBS (Certified Employee Benefits Specialist). She joined Penn in 1983 as a compensation specialist, and was promoted to director in 1987. During her nine years at Penn she has also headed other Human Resources departments including employment, records and information management.

Harrisburg Countdown

Both houses of the General Assembly are recommending at least something for Penn in contrast to Governor Robert Casey's "zero funding" for private higher education, according to Paul Cribbins, director for city and commonwealth relations at Penn.

The House has passed a bill giving some relief to the School of Veterinary Medicine and the Senate is considering a proposal to cover 90% of last year's amount to all Penn-aided categories.

But the competing bills of House and Senate will require negotiation and are expected to go to conference very shortly as the legislature seeks to adopt an appropriations bill by June 30, Mr. Cribbins said.

He urged Pennsylvania residents on the faculty and staff to write or phone key leaders (listed on page 3, the inside back page of this issue). Those who have already written to their legislators may wish to send copies of their earlier letters to these leaders, Mr. Cribbins added.

The competing responses are:

- Passed in the House: The Democratic majority's proposal to restore $12.6 million for the School of Veterinary Medicine, with no appropriations for any other programs traditionally aided at Penn. The $12.6 million is a single line in a General Appropriations Bill which does not differentiate education from research or service, or the Philadelphia campus from New Bolton Center.

- In Progress in the Senate: The Republican minority's bill-in-build restores 90% of Penn's 1991-92 rate of funding, line by line, for general instruction, dental clinics, medicine and the various sectors of veterinary medicine. The comparative figures (in thousands) show four separate line items for veterinary medicine which add up to $13,800:

<table>
<thead>
<tr>
<th>Line Item</th>
<th>1991-92</th>
<th>1992-93</th>
</tr>
</thead>
<tbody>
<tr>
<td>Instruction</td>
<td>$14,970</td>
<td>$14,970</td>
</tr>
<tr>
<td>Dental Clinics</td>
<td>$4,136</td>
<td>$4,136</td>
</tr>
<tr>
<td>Medical School</td>
<td>$7,205</td>
<td>$7,205</td>
</tr>
<tr>
<td>Veterinary Medicine</td>
<td>$3,532</td>
<td>$3,532</td>
</tr>
<tr>
<td>New Bolton AnimalClinic</td>
<td>$1,161</td>
<td>$1,161</td>
</tr>
<tr>
<td>Total</td>
<td>$37,808</td>
<td>$37,808</td>
</tr>
</tbody>
</table>

Whatever the compromise that emerges, Mr. Cribbins said, the General Assembly's final bill must still go back to the Governor. Thus campus writers may wish to send copies of their earlier letters to the Governor. His address and phone number are also on page 3 (inside back page).

Death of Dr. Harris: At press time Almanac learned that Dr. Zel·lig Harris, Benjamin Franklin Professor Emeritus of Linguistics, died Friday in New York City.
Undergraduate Initiatives Fund Awards: $413,000 for 1992-93

Over $413,000 has been granted to the four undergraduate schools and the School of Veterinary Medicine from the Undergraduate Initiatives Fund established a year ago to encourage innovative initiatives in undergraduate education.

Because of the potential loss of unrestricted state funding, grants from the Fund were made from accumulated surpluses only, thus limiting the number of proposals that could be funded.

As in previous years, cross-school and cross-disciplinary proposals were encouraged. This coming year some $64,624 will go toward joint school projects. They are:

- the all-University Freshman Orientation Reading Project;
- innovative laboratory experiences in introductory science and mathematics being developed jointly by Arts and Sciences and Engineering;
- a course proposal submitted jointly by Wharton and Engineering that examines the Impact of Technology on Business.

Individual school projects that are being funded are outlined below.

School of Arts and Sciences: $139,060
- An interdisciplinary course on Great Trials that exposes students to work in history, law, philosophy, psychology, and literary study;
- the purchase of audiovisual teaching aids for interactive computer-controlled systems to be used in Freshman Seminars;
- the development or revision of a number of academic courses:
  1) an interdisciplinary course on Great Trials that exposes students to work in history, law, philosophy, psychology, and literary study;
  2) the recasting of Environmental Studies 200 with recitations;
  3) the establishment of an integrated elementary science laboratory course to replace the laboratory exercises in introductory Biology, Chemistry, and Physics; and
  4) the testing of a third new type of writing course in which some freshman seminars become writing seminars as well.
- the purchase of hardware needed to effectively utilize an institutional research tool that provides information about the curriculum to departments, policy-setting committees and to academic advisors; and the development of instructional materials, as well as training programs, on how to use PennInfo to obtain information on degree requirements, policies and procedures, and other academic matters.

School of Engineering and Applied Science: $86,500
- the purchase of equipment for an interdisciplinary undergraduate laboratory to be shared by Mechanical Engineering and Systems Science and Engineering as part of an effort to develop an effective undergraduate thrust in manufacturing technology.
- the purchase of Sun SPARCstation workstations for use by undergraduates wishing to elect advanced computer science courses as a result of the extensive revision of the introductory programming course in SEAS.
- the development of a shared resource for all SEAS students and faculty in which a number of general-purpose mathematics software packages for modeling and simulation of various systems will be systemically introduced into the engineering curriculum. A new course for freshman-sophomore engineering students on the use of these programs will be developed, as will educational material for faculty.

School of Nursing: $36,400
- the development of Computer-Assisted Instruction for Problem-Solving Exercises to be used in the Freshman General Chemistry Course that will enable students to progress at their own pace;
- the development of Computer-Assisted and Video Instruction in Clinical Simulations to improve the teaching methods whereby undergraduate students learn such skills as taking vital signs, administering medications, physical assessment and clinical decision-making.

Wharton School: $78,874
- the development of a required non-credit experience for all entering Wharton freshmen—to be known as Wharton Connects—in which students will meet weekly, attend special workshops, receive training in presentation skills and communications, and participate in a term-long project of their choosing.
- the development of a living-learning program in Spain similar to that currently being offered in Lyon, France, whereby undergraduate students are able to take business and liberal arts courses in Spanish and receive Wharton credit for them.

School of Veterinary Medicine: $9,800
- an undergraduate research experience for students in the biological sciences, with students working with faculty in a laboratory setting.

With the adoption of the revised Student Judicial Charter and Code of Academic Integrity beginning opposite, the Provost’s Office issued the following summation of School and Program responses to date:

* Western Union’s “Opinion Message,” widely publicized for expression of views on federal bills, can be used for in-state communication under the same conditions and at the same rate: $9.95 for the first 20 words, and $3.50 for an additional 20. Telegrams must address:营业额 Enders should specify billing to their home telephones.

Coming: The New Franklin/PennData
When faculty and students return to campus this fall and check out the Library’s computerized system, they’ll find the catalog 139 Main most. Franklin will be just one choice on the introductory menu: other choices will be MEDLINE (health sciences), PsycInfo (Psychological Abstracts), ABI/Inform (business and management), and a new file of periodical indexes covering arts, humanities, social sciences and science and technology. Switching from one database to another will be fast and easy, and searches can be repeated across files without re-keying. The most exciting feature of the new Franklin/PennData is that catalog and journal indexes are fully integrated. When a journal cite in MEDLINE, for example, is owned by Penn’s libraries, the citation will link directly into Franklin showing library holdings, volumes bound, issues received, etc.

Franklin, too, will have a new look and new power. Clearer, labeled displays can be selected in brief or long formats. And finally, for the armchair browser, it will be possible to search by call number. A virtual walk through the stacks will allow searchers to see what’s on the shelves throughout the Penn Library system, and to see what’s checked out.

Today Franklin is searchable by author, title, subject, and keyword, and has Boolean search capability. By fall, call number browsing will be available. Franklin also indicates the current status of a book, what’s on order, and which issues of a journal are on hand. For some libraries, it even records what’s at the Bindery. And Franklin is available most of the time; the Penn community is awake. The new PennData will be accessible to all faculty, staff and students, and will continue to expand in coverage of major journal files, and will be fully integrated into Franklin.

— Paul Mosher, Vice Provost and Director of Libraries

permit Parking Rates for FY 1993

The permit parking fee schedule for 1992-93 has been reviewed with the University Council Committee on Facilities. The general fee structure is responsive to the University policy requiring the Parking Program to be self-supporting. Parking income is used to cover the cost of surface lot improvements (e.g., pavement, fencing, striping, control gates), pay the salaries of attendants, reduce the construction debt on garages, and cover the cost of miscellaneous expenses.

For the 1993 academic year, permit parking fees will increase by 50 cents a week in most University parking lots. The average permit parking rate is $2.19 per working day and compares favorably with the minimum rate of $1.75 charged on most surface lots.

Following is a breakdown of FY 92-93 UMIS Rates

DEATHS

Edward F. Fry, 56, who taught in the history of art department, died in April. In addition to Penn, he also taught at Princeton, Yale, and Harvard, among other institutions.

Mr. Fry also served as curator for art exhibitions here and abroad. He authored many essays, articles and books, including Children, David Smith, Sculpture from 20 Nations and Robert Morris: Works of the 1960s.

He is survived by his wife, Alexandra, and a sister.

Dr. Leonard N. Horowitz, 44, an internationally respected cardiologist and researcher in the diagnosis and treatment of abnormal heart rhythms, died of cancer on May 21. He had been a clinical professor of medicine at the University since 1988, and was the co-director of the Philadelphia Heart Institute at Presbyterian Medical Center and had been the director of its Arrhythmia Services since 1987.

Prior to joining Presbyterian, Dr. Horowitz was the director of Clinical Cardiac Electrophysiology at the Likoff Cardiovascular Institute at Hahnemann University. Before that, from 1978 to 1981, he was the Associate Director of Ambulatory Electrocardiographic Monitoring at HUP and the Director of the Clinical Electrophysiology Center at Children's Hospital.

He received his Bachelors degree from Tulane University, and his degree in medicine from Penn. He completed both his internship and fellowship at Penn.

Dr. Horowitz is survived by his wife, the former Dona Weinstein; his sons, Adam and Joshua; his daughter, Aimee; his mother, Belle S. Horowitz; and his sister, Marcia Josowitz.

ALMANAC May 26, 1992
OSHA Mandate: Exposure Control Plan for Bloodborne Pathogens

In accordance with the OSHA Bloodborne Pathogens Standard, 29 CFR 1910.1030, the Office of Environmental Health and Safety (OEHS) has developed an Exposure Control Plan. The plan establishes practices and procedures to eliminate or minimize occupational exposure to the following bloodborne pathogens: Human Immunodeficiency Virus, Hepatitis B Virus, non-A non-B hepatitis virus, Human T-cell Lymphotropic Virus type I, malaria, babesia, brucellosis, leptospirosis, arboviruses, relapsing fever, Creutzfeld-Jakob Disease, and viral hemorrhagic fever.

The plan must be completed by all principal investigators, supervisors, and contributors that work with blood, blood products, and other potentially infectious materials. The principal investigator or supervisor must make the completed plan accessible to all employees in their area. Copies of the plan may be obtained from OEHS at 1408 Blockley Hall/6021 or by calling Ext. 8-4453.

Update

FILM

27 Missing: political thriller about an American who disappears in a politically torn South American country. Sissy Spacek and Jack Lemmon star; free with gallery admission; 6 p.m., ICA.

FITNESS/LEARNING

26 Caregiver's Support Group; noon-1 p.m., Room 301, Houston Hall (CCRN).

27 Less Than 18 Months in Recovery; Nancy Maddox, P.S.A. Councilor; noon-1 p.m., Room 301, Houston Hall (P.S.A).

TALKS

27 Idiopathic Pulmonary Fibrosis: A Network of Cells and Cytokines; Galen Toews, University of Michigan; 11 a.m., Medical Alumni Hall, 1st Floor Maloney (Medicine).

28 Development of an Instrument for Detecting Prevalence of Abnormal Drinking Among the Population of the IX Region of Chile; Eduardo Ibarra, HUP, 9-10 a.m., 513 NEB (GIM).

29 Transgenic and Embryonic Stem Cell "Knock-out" Technology; Richard Sutton, senior medical resident; noon-1 p.m., Agnew-Grice Conference Room, 2 Dullies (GM).

Sleep Study Volunteers, 21-30

Student volunteers are needed for a Pennsylvania-affiliated research study on sleep loss and immune function starting Saturday afternoon, July 25, and continuing through Friday evening, July 31. Subject must be a healthy student, 21-30 years of age, willing to have blood samples drawn as well as EEG sleep, alertness, and performance measured. Blood samples require advanced HIV test. Study includes up to 64 consecutive hours of sleep loss, after two standard 8-hour nights of sleep, in a hospital setting. For more information, contact Ms. Carlin, 471-2525, 8 a.m.-1 p.m. Monday through Friday.

Correction: Dr. David Hildebrand is Professor of Statistics, not Marketing as misprinted May 12.
