

University Council Committees, 1999-2000

Below is the 1999-2000 membership of the University Council, the University-wide governance organization that meets monthly to deliberate on campus issues and share information on University projects and progress. Council is advisory to the President, and includes representatives of the Faculty Senate, two student assemblies and three staff assemblies.

Council's agenda and formal reports, and some of its debate, appear in Almanac. Meetings are open to observers who register their interest in advance with the Office of the Secretary (215-898-7005).

Much of the work of Council is done by its committees, listed on pages II and III of this four-page insert. They, and a set of Independent Committees listed on page III are selected by the Steering Committee on recommendation of the Committee on Committees. Any member of the University may be asked to serve on such a committee, and only members of the University are eligible to do so. The Committee on Committees will shortly publish its annual call for nominations to these bodies. Their charges, and many of their past reports, can be accessed through Almanac's web site, www.upenn.edu/almanac.

The fourth page of this pullout section lists the format for University Council's annual forum and a list of the upcoming Council meetings.—Ed.

— *Office of the Secretary*

Format for University Council's Open Forum December 8, 1999

The University Council will devote a substantial portion of its December 8, 1999 meeting to a public forum, in accordance with the terms of the University Council Bylaws (*Almanac* September 22, 1998). The purpose of the Open Forum is to inform Council of issues important to the University's general welfare and of the range of views held by members of the University. The forum is open to all members of the University community under the conditions set by the Bylaws, following guidelines established by the Steering Committee of Council:

1. Any member of the University Community who wishes to do so may attend the Council meeting. Persons who wish to speak to Council, however, must inform the Office of the Secretary (215-898-7005) by Tuesday, November 30, 1999 indicating briefly the subject of their remarks. Those who have not so informed the Office of the Secretary will be permitted to speak only at the discretion of the moderator of University Council and in the event that time remains after the scheduled speakers.
2. Speakers should expect to be limited to three minutes with the possibility of additional time in cases where members of Council engage the speakers with follow-up questions or remarks. The moderator may restrict repetition of views. Speakers are encouraged to provide Council with supporting materials and/or written extensions of their statements before, during, or after the Council meeting.
3. Following the deadline for speakers to sign up in the Office of the Secretary, the chair of Steering and the moderator of Council will structure the subject matter themes, speakers, and times of the Open Forum session. In the event that there is not enough time available at the meeting to provide for all those who have requested to speak, the two officers may make selections which accommodate the broadest array of issues having important implications for Council's work and represent the breadth of Council's constituencies. The resulting order of the Open Forum of University Council will be made available no later than the Tuesday before the meeting, to be published in the *Daily Pennsylvanian*, and posted on Penn Web on that day and, if possible under publication deadlines, in *Almanac* the week of the meeting.
4. Speakers' statements should be framed so as to present policy issues and directed to University Council as a body through the moderator. The moderator will have discretion to interrupt statements that are directed against persons and otherwise to maintain the decorum of the meeting, as provided for in the Bylaws. In cases where questions or positions can be appropriately addressed by members of Council, or where a colloquy would seem to be productive given the time constraints of the meeting, the moderator may recognize members of Council to respond to speakers' statements, with opportunities for follow-up by the speakers.
