Wharton Health Care Management Department and the Leonard Davis Institute are pleased to announce:

Julia Adler-Milstein
Doctoral Candidate, Health Policy (Management Track) Harvard University

The Use of Information Technology in Health Care Delivery

Mon., Jan. 31, 2011; 10:30 AM – 12:00 PM
Room F92, Jon M. Huntsman Hall

Light Refreshments Will Be Offered.

Julia Adler-Milstein is a doctoral candidate in Health Policy at Harvard University (Management Track). Her research focuses on management and policy issues related to the use of information technology in health care delivery. Her dissertation, comprised of three empirical papers, examines the progress of IT adoption in the health care sector, the impact of such adoption on health care costs, and the productivity implications of work restructuring following health IT adoption. Prior to graduate school, Julia worked as an analyst at the Center for Information Technology Leadership at Partners HealthCare. There she built models that quantified expected clinical, financial, and organizational gain from the adoption of health IT. Julia also spent two years with Accenture’s Health and Life Sciences strategy consulting practice. Julia graduated Phi Beta Kappa and with distinction from Stanford University in 2001 with a B.A. in Human Biology.
