RSVP recommended.

Allison Rosen is an Assistant Professor in the Departments of Internal Medicine (Medical School) and Health Management and Policy (School of Public Health) at the University of Michigan, and Clinical Director of the University of Michigan's Center for Value Based Insurance Design. She received her undergraduate degree in Economics from the University of Pennsylvania, her M.P.H. from the University of North Carolina, Chapel Hill and M.D. from Duke University. She completed her residency in Internal Medicine at the University of California, San Francisco followed by an AHRQ Health Services Research fellowship at Harvard University, during which she completed her Sc.D. in Health Policy and Management (2004).

Dr. Rosen has been a faculty member at the University of Michigan since the Fall of 2004. Her research applies methods from the social sciences to the measurement and improvement of quality and value in chronic disease care. A major focus is on the use of information on the value of medical interventions to better inform payment policies.
