maddene@wharton.upenn.edu or 215-898-5611

Robert Town, PhD is the James A. Hamilton Professor of Health Economics and an Associate Professor in the Division of Health Policy and Management, University of Minnesota. He has expertise in the areas of health economics, industrial organization and applied econometrics. His research focuses on competition and the impact of public policy on health care market outcomes. Dr. Town has studied the dynamic evolution of the hospital industry, the impact of hospital network formation on competitive outcomes, the role of competition in determining hospital quality and the appropriate antitrust policy in health care and health insurance markets. He is a Research Associate at the National Bureau of Economic Research.
