

LOCATION OF FORMER WINGOHOCKING CREEK CHANNEL

POSITIVE DIFFERENCES IN GROUND ELEVATIONS - EARLY 20TH CENTURY V. 1998 TOPOGRAPHY

	10 - 20 FT
	20 - 30 FT
	30 - 40 FT
	40 - 48 FT

This map reflects increases in ground elevations in the vicinity of the former Wingohocking Creek. Increases were estimated by comparison of five foot elevation contours as shown on 1929 City Plans and current two foot elevation contours obtained from the City Planning Commission.
