Section 1 – Standard Project

The Account Information Sheet (AIS) is a product of the PennERA Proposal Tracking system and BEN Financials.

The AIS is divided into three sections.

The Account Information Sheet Header Section

The Account Information Section contains information specific to a BEN account that is set up for an award.

The Award Information Section contains general award information that is relevant to all award increments associated with a sponsored project.

Section 2 – Cost Share AIS

When there is Cost Sharing associated with a sponsored project, an additional Account Information Sheet (AIS) will be issued. PennERA Proposal Tracking system captures incremental information, specific to the Cost Sharing.

The Cost Share AIS is similar to the standard AIS and is divided into three similar sections.

The Account Information Sheet Header Section

The Account Information section contains information specific to a BEN account that is set up for the cost share.

The Award Information section contains general information that is relevant to all cost share increments associated with a sponsored project.

The Cost Share AIS contains all fields, however, the only descriptions included are for fields that vary from the standard AIS. Refer to the previous AIS Descriptions (starting on page 3) for further detail.

Section 3 – Cost Share - No Fund

When there is cost sharing associated with a sponsored project that, by University policy, does not require a discreet 5-fund be used for tracking the activity, a Cost Share - No Fund Account Information Sheet (AIS) will be created for incremental information related to this cost sharing.

The Cost Share - No Fund AIS is similar to the previous Cost Share AIS and is divided into three sections.

The Account Information Sheet Header Section

The Account Information section contains information specific to the cost share increment with no associated fund for which the AIS was requested.

The Award Information section contains general information that is relevant to all cost share increments associated with a sponsored project.

The following Cost Share – No Fund AIS displays all field labels, however the only descriptions included are those that vary from the Cost Share AIS. Refer to the previous AIS Descriptions for other details.
